

Shhh-elf:

A Book Talk Tool to Spark Reading Through Curiosity and Connection

Haiyu

“Finding books is hard... It takes me a long time to finish the first chapter and I’m not even sure if I like it.”

– Teen interviewee

Experience

**what exactly is
your shh-elf app?**

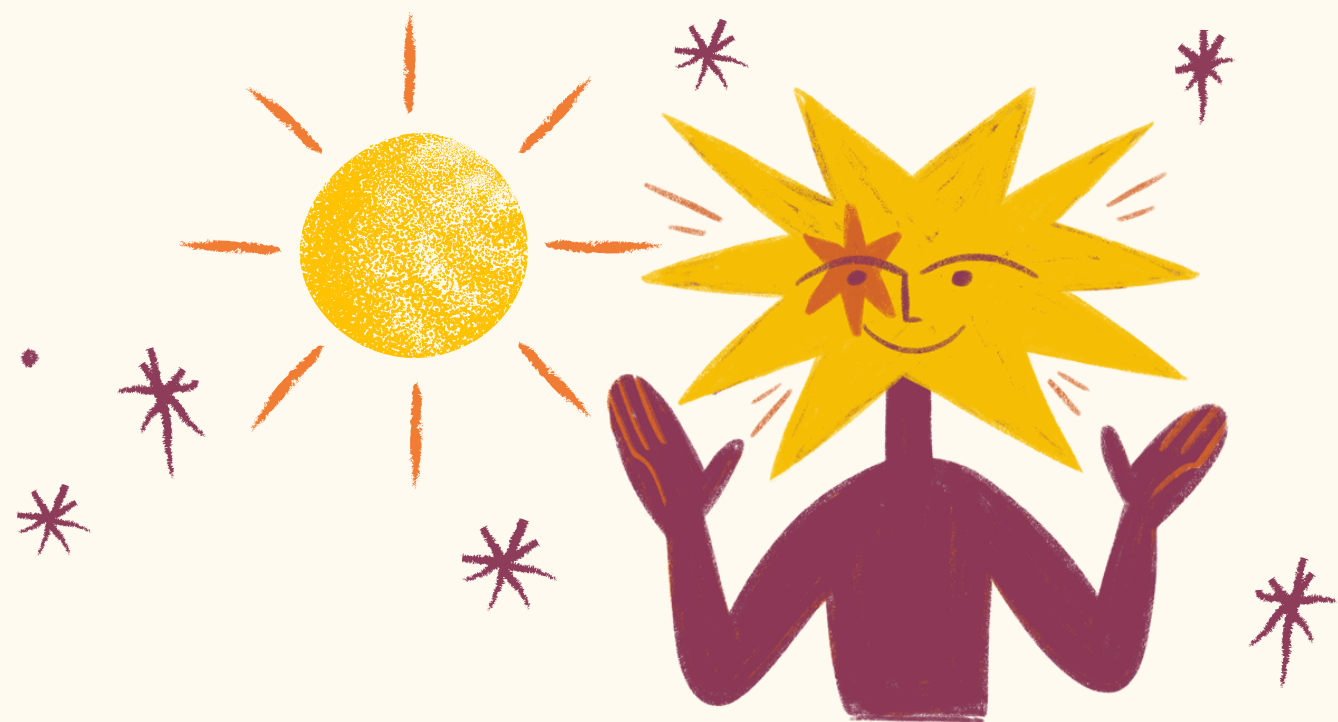

It has two parts

Book talk
gallery

Book talk
playground

Book Talk Gallery

- short audio clips to spark interest
- Designed for curious or reluctant readers
- Emotion-first! not summary-first

Book Talk Playground

- Students upload a few lines about someone they want to recommend a book to
- AI turns it into a podcast-style voice memo—natural, emotional, shareable

People read more when they're curious.

Reading sticks when it leads to conversation.

Peer recommendations matter more than generic lists.

This design gives readers a reason to care, a way to share, and a place to begin.

**but how do you know it's
working?**

Interview

Booktalk MVP

Paired readathon

**Together, these trials support the product's promise:
Make reading curious, social, and worth sharing.**

Thank you!

Virginia Woolf and *To the Lighthouse*

21 sources

Several sources discuss Virginia Woolf's novel *To the Lighthouse*, analyzing its use of the **stream of consciousness narrative technique** to explore the subjective experiences, memories, and relationships of characters over time. These texts highlight how the novel captures the fragmented nature of thought and perception, depicting the complexities of human connection and the impact of external events, like World War I, on individual lives. The discussion of the novel connects to broader philosophical and scientific concepts surrounding **consciousness**, including debates about its nature, whether it can be artificially replicated, and how it relates to the self and external reality. Some sources also touch upon the **feminist themes** present in Woolf's work, examining her critique of gender inequality and patriarchal structures within the narrative of *To the Lighthouse*.
